I trust you have all made plans for the creation of shielded loops, delta loops and Beverage antennas for the coming contest season. After hearing Ted, KA6W, and Garry, NI6T, speak at the last club meeting I found myself mentally looking at the trees on my property to see which were high enough and far enough apart to handle a conventional apex-down delta loop, or just one in the open that would handle modified apex up delta loop and not catch deer, dogs or small children with the low wire. I think I have a couple of good possibilities as long as the buck that lives near the old horse corral ducks his head.

The second and third legs of the NCCC Triple Crown are the phone and CW portions of Sweepstakes. The club made a good showing during our California QSO Party. Thanks to all who participated in the premier state QSO party of the year. All counties were on the air and one Midwest station reported working all California counties in 5 hours. Well done! Lets keep up the level of excitement and turn in a good showing for both weekends of Sweepstakes. We very well can achieve a repeat of last year's victory. Don't forget the CQ WW contest weekends coming up also. Despite the reduced sunspot number, there are going to be a lot of contesters perched on far away islands, rocks and reefs waiting to work each and every one of you. Ten meters is still showing a few signs of life and could yield important multipliers during these contests.

The second Internet SprINT is now history. If you aren't on the Internet you may not have even heard about this contest. With this event you must submit your log electronically via the Internet.

The Christmas Party this year will be at the Stanford Park Hotel which is in Menlo Park on El Camino Real. The date for this event is Sunday December 12. Space for this event is relatively limited so be sure to read the announcement elsewhere in this issue and act accordingly.

President con't from Page 1

As hard as it is to believe, there are only a few months left until the current officer's terms are over. When I became President I discovered there was no master list of things that needed to be done. Before my term is over I plan to pull together current and past club officers to come up with such lists for all offices. This is especially critical for management of the CQP; there are several important activities that need to take place about the time the new officers are just taking over. So, previous officers, directors and other interested parties, start making lists of things that need to be done during the year. In a few weeks I will announce a meeting of all those interested to compare lists, discuss controversial items, and create master lists. One useful tool for this task arrived in the mail last week from ARRL. It is a club officer's planning calendar that has many items already thought out.

## de Andy Faber, AE6Y VEEP SPEAK

Rumor has it that the Frankford Radio Club, humiliated by their drubbing last year, are going to be out in force to put us in our place (which they think is second, or tenth, or anywhere but FIRST)! To help the Club again vanquish all comers, you must: (1) send your log to the ARRL, and (2) indicate on the summary sheet it's for Northern Calif. Contest Club!

Last point: Work club members. N6IP quotes N6TU's immortal observation that every QSO between NCCC members is "two for us, none for them." Note 80 meter skeds for NCCC's listed in Approaching Contests.

### CQ WorldWide SSB

Ye olde CC participated only to get a few new band countries, but some NCCC members were on in a big way (including our own WN4KKN, W6QHS, KK6KM, and N6KT at EA9UK). An Internet release by OH1NOA had promised activity by SU2MT, 3A/11RBJ and ZS9DX, for all of which I active searched. Never heard (or saw spots for) the 3A, but did get ZS9/ZS4NS on 15/20/40. SU2MT came on 20 briefly on Saturday, but seemed to be scared off by the pileup, and was barely audible for a while on 15 on Sunday. Did he start answering CQ's? How many of you got zone 34?

Conditions were actually pretty good, with even 10 open for hours on end (though barely, if at all, open to EU). The record for first reported DXPSN score goes to AA6MC, Dick, who managed to post his score 5 minutes after the close of the contest! Honorable mention to Rich, KI3V/7 (9 minutes).

## FIVE MILLION POINT AWARD RULES

The 5 Meg award has generated a lot of interest since it started in July '86. From time to time, the rules and standings will be published in the JUG. Any questions about the rules, or of any points totals should be addressed to the VPCC and/or AD6E.

### PURPOSE:

This award is intended to give recognition for sustained efforts by NCCC members. All too often club members compete with moderate stations, year-in and year-out without a reasonable chance to win major awards. The Five Million Point Award is designed to rectify this situation. This award will be issued on a once per person basis.

### HOW TO ENTER:

Send a duplicate copy of your Summary Sheet to VPCC; AE6Y. In the case of club contests, two summary sheets should be submitted. One sheet for the club entry and a second marked "Five Million Point Award".

(I accept scores from -DXPSN- but that isn't always reliable. Be sure to send summary sheets to the VPCC! de AI, AD6E)

### RULES:

1. This award requires the accumulation of five million points.
2. Point totals shall be accrued by the VPCC from copies of Summary Sheets which the contestant has submitted a valid entry.
3. Any contest entry may be used for submission as long as the entrant is competing from NCCC territory.
4. It is not necessary for the NCCC to be participating as a club for your point totals to count towards this award.

5. Participation with a Multi Multi or Multi Single station can count for this award. To calculate your portion for this award, divide the total score by total number of operators and submit a summary for that portion of the effort.

Scores can't from Page 2
