Club Competition Summary (5 logs minimum)

	# logs	top member	club score
Mother Lode DX&CC	18	K6PU	1,023,828
Shasta DX&CC	6	KN6WY	643,281
Central Coast DX&CC	8	W6UM	299,672

...This was a QRP effort. 5 watts to the antenna. I was surprised to see the 10 QSO [rate] window stay in the 70-80 range on 20M...
W6REC

Tough contest this year due to band conditions! But, as usual, enjoyed it anyway. K2EWA

Nice to set Shasta Co. record! KG6LF

...the highlight of the contest, to my delight and surprise was working 167 DX stations, literally without trying...mostly Europe...the capper and last DX QSO: OD5NJ. If only I have runs like this in CQWW!
.... AB6FO

This is always a wonderful QSO Party and some day I am going to work all 58 counties! See you next year. K9DIY

Best of all QSO parties. Just moved to Alabama and only had a dipole up 20 feet so couldn't do much. C U guys next year with a better ant and hopefully band openings on 15 & 10 meters.... AB4HR

I enjoyed working in the California QSO Party very much this year. I didn't get a lot of operating time, but really got a 'kick' out of working 'The Golden State' on the 80m band! KM3D

Good conditions this year, and by far my best score ever! VE3TEE

Thank you all for sponsoring the CQP contest - it must be a lot of work for you all, yet it's a great contest to be in. ... WW6Z

Enjoyed your QSO Party, there's always plenty of activity!
... VE3WZ

Logged several non CA stations asking what contest I was operating. Logged a couple ov VK/ZL stations with great signals. These were my corrections to the log. If 15M doesn't open on Sunday, it is not a good day. Sunday was DISMAL! Stations that I needed on 20M could hear me, but I couldn't copy the reports between the high power CA stations competing for space. Logged three stations on county lines and had to correct log. I don't know how else to do this. (Ans: use more advanced software from AD6E or AE6Y.. ed)
.... KO4MM

Participation seemed down somewhat from last year. But it was fun as usual. I think one way that you could make it more fun for non-CA stations is to count multipliers again on each band. This would incent CA stations to try other bands. Why not provide an award for working all CA counties like the Sweepstakes Clean Sweep Award?
..... KI4HN (@AA4NC)

A whale of a contest! Sitting outside in the cold really cut down the operating time. My XYL made me sit outside (no room in the condo)
... W7DRA/VE7

Please accept my logging in format its in. Its not too hard to figure out with a little study. (OUCH!... ed) WL7WO/1

Many thanks to N6BT for all of the counties that I just happened to need!!
.... WA3HAE

...I'm quite happy to work so many with only 150 watts... DK3GI

...It seemed that propagation into and out of my QTH was awful; then the Arc-Welding Academy in the neighborhood started up to show me what BAD was really like. I got lots of sleep. On Sunday morning, my computer couldn't remember where the hard drive was, or what time it was... AB6YL

Thanks for the great contest. The occasional openings on 15 made it more interesting. Too bad so few people tried local contacts on 10. KQ6ES

This entry is being submitted only because of a disaster: John (N6MU) set out to put in a serious effort at N6NB using his own call, but two hours into the contest the laptop computer abruptly and inexplicably shut down. All data from the first two hours was gone. John was devastated. He already had about 200 QSOs, but was stuck. He couldn't hope to turn in a top score after losing two prime hours. He couldn't really even start over under his own call, because lots of people had him in their logs. So he decided to start over using my call (N6NB). So John had fun, but he really wanted to go for a high score. Strangely, the computer never crashed again. Do you suppose that was because I never again used the power saw I was using when the crash occurred? The saw, station, and computer were all on the same gasoline generator... N6NB

... I enjoy old fashioned log (spiral binder) and write as fast as I can.. Lots of pileups for Del Norte county and actually got a NEW DXCC country (#302) when an ODS called! ... K6HY

I turned on the rig at 1425 - the earliest that I expected to be able to hear California on 20. At that time WB6IRC was already S8! ... An opening of some 5 hours! A real bonus for a sun spot minimum. ... G3IZJ

Getting "CCosMarinSolSon" from K6MO/MM sent me scurrying to an atlas to see where the four counties meet.... K8JLF

...bad condx on other bands were compensated by pleasure to work a number of well known "big guns" and unknown "little pistols". Biggest signal I heard from WB6IRC (S9+10) with my KT34 @ 80 ft. Now I'm waiting for next year and better propagation to "win" at least T-SHIRT. Sorry, only one mobile - N6BT/M with quite a good signal. Where were other (mobile) guys? ... Thanks a lot to everyone. See you in CQP next year. ... RA6AR

Exciting contest, good turnout. Worked every CA county I could hear on CW. Wish more CA stations had shown up for 15 meter openings {huh? there were 15 openings??? .. ed} Too few CA mobiles on CW. Why not create a separate category for CW only stations? Already looking forward to next year..... N3IXR

Why can't we submit discs using NA??? W8UPH
[You can submit ASCII files from any computer logger...ed]

This was my 4th consecutive year to participate and like the past three years, I had a ball. Unfortunately, my score did not live up to my past contest but, what the heck, I had a good time. WB5RYB
